

MATERIALS & FINISHES

Hyload offers 26 standard colors of coil-coated Kynar paint on steel and aluminum in the following gauges as indicated along the sidebar:

A - 24 gauge steel
B - .040" aluminum
C - .050" aluminum
D - .063" aluminum

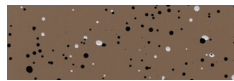

Hyload also furnishes products in these materials:

Mill Finish Aluminum: .040", .050", .063", .080", .125"
Galvanized Steel (G-90 or Paint Grip): 24 gauge, 22 gauge
110 Copper: 16 ounce, 20 ounce
304 Stainless Steel (2B or Polished): 24 gauge, 22 gauge

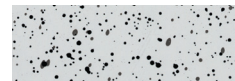

The following Premium colors are available. For a true color representation, please call or write for actual metal sample(s).

Silver Metallic - ABC Classic Copper - AB Champagne Metallic - AB

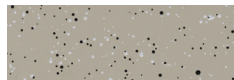

Unique spatter paint looks are available in .040", .050", .063", .080", and .125" material. This gives your roof edge a "stone-look" appearance.

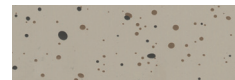

Brown Stone

Cast Stone

Lime Stone

Sandstone

Hyload also offers standard coil anodized finishes in clear, medium bronze, dark bronze and black. In addition to our standard finishes, Hyload can provide custom color, postcoated Kynar paint finishes and batch anodized finishes on all mill aluminum gauges listed.

Kynar based fluoropolymer coating is a high-grade architectural finish offering excellent resistance to degradation caused by nature's elements and airborne contaminants. A limited twenty (20) year warranty is available on the standard coil-coated colors shown. A limited ten (10) year warranty is available on custom, postcoated aluminum applications.

IMPORTANT NOTE: Due to shade variations in the anodizing process, it is recommended that the contractor work with the architect or building owner to sort and install products in the arrangement best suited to the owner's preference. Hyload offers no warranty to anodized finishes and will not be held responsible for shade variations inherent to the anodizing process.
